Why Our Customers Stay Loyal

The following are what we consider our most important strengths and the reasons our customers continue to loyally buy from us:

- 1) Price.** Due to our buying power. We import many containers of gloves, rainwear, boots, fencing, netting and tarps etc.per week.
- 2) Service.** We have an ample supply of all items in stock so that we can ship orders within 12 hours.
- 3) One Stop Shopping.** With the breadth of our inventory we can satisfy almost all of our customers safety needs.
- 4) Quality.** The products we sell, have a well-earned reputation for rigorous quality control standards. We have long term relationships with our manufactures so that they are familiar with our own demands.
- 5) Future.** Our strategy for the future is that with our utmost effort and diligence, we will carefully attend and service all our accounts with personal attention to their utmost satisfaction.

EYE PROTECTION

WRAPAROUND PROTECTIVE GLASSES

Attractive looking, lightweight wraparound design made from 100% polycarbonate material offers protection all around and greatly extends the field of vision. It's one-piece scratch resistant optical lens, greatly reduces the optical imbalances of two-lens eyewear. The new design temples gently wraps around the back of the head rather than hooking over the ears, and does not slip even on very active jobs. It's vented sideshield-type temples allows air to flow and reduce heat build-up and lens fogging. It also features a frosted brow which reduces glare from overhead lighting. Ordering Information: Packaged, 10 to a carton.

Clear **180-C**
 Gray **180-GY**
 Amber **180-A**
 Green **180-G**
 Blue/Clear **SMB**

550 GOGGLES

With Polycarbonate lens. For protection against flying chips and particles. Ventilation provided by many perforations (2mm diameter) in the frame.

550F

Same as 550 with fog-free lens.

551

For chemical and anti-splash use. Plastic Hooded Vents provide excellent indirect ventilation and protection.

551F

Same as 551 with fog-free lens.

VS VISITORS SPECTACLES

Economical eye protection for plant visitors. Large lens size can be worn over prescription glasses. Extra wide temples and top flange offers more protection for top and side. Does not meet OSHA specs.

SAFETY FRAME PROTECTIVE GLASSES

It's features include polycarbonate lenses, large, protective sideshields and a browguard. Plus handsome, aviator styling that almost guarantees your employees will want to wear it.

STYLE#	LENS	EYE SIZE	FRAME

HEARING & EYE PROTECTION

DECI

DECI EAR PLUGS

An exclusive foam construction allows ear plugs to conform to the size and shape of virtually any ear canal. The result is a custom-fit and outstanding comfort. Non-allergenic. Washable. Available in reusable pillow packs.

DECI-C EAR PLUGS WITH CORD

The custom-fitting effectiveness of ear plugs with the stay-together convenience of a blue vinyl cord. Cord helps with compliance sighting and helps prevent loss.

ULTRA-ULTRAFIT EARPLUGS

Ultrafit earplugs combine optimum protection, superior comfort and the economical advantage of repeat wearings. The triple-flange design provides a triple-seal against noise discomfort. One size fits most.

EAR MUFFS

Ear muffs combine features like large foam filled cushions, pivoting earcups and a universal fit headband to offer workers the best of both worlds...excellent protection and superior comfort.

1000 Over the head Ear muffs. Provides OSHA required protection for most environments.

200H Flip-up design fits most standard hard hats.

H4 TOUGH LIGHTWEIGHT HEADGEAR

Used for general purpose protection against splash or spray of non corrosive liquids, sparks and flying particles from light machine work such as chipping, grinding and sanding. It sports a comfort cushion sweatband and has adjustable sizes. Order windows separately.

H8 HEADGEAR (NOT SHOWN)

Rugged yet lightweight headgear used where fuller head coverage for sparks is not required. Ratchet knob easily adjusts head size. Order windows separately.

W96 PROPIONATE WINDOW

Clear propionate window for general purpose protection to reduce the risk of splash, spray and light impact. Good chemical resistance. Size: 9" x 14 1/2" X 0.060".

EW-1 EMERGENCY EYEWASH

This 32 oz. complete eye wash station neutralizes varying quantities of acids and caustics depending upon their concentrations. Bottle comes with a shrink sealed cap to guarantee the sterility of the solution.

HEAD PROTECTION

HH-HARD HATS

High density polyethylene shell, Rain trough to shed rain out over the peak rather than down the neck of the wearer, Reinforcing ribs for extra shell strength, 3 position vertical adjustable headband for a comfortable fit, Foam backed perforated vinyl sweatband, A combination head hugging nape strap and sizing adjustment, hats weighs less than 10 oz. Side slots allow the easy attaching or detaching of accessories including: welding helmets, ear muffs, faceshields or combination of ear muffs and faceshields, or while screens maintaining standards and eliminating the need to drill the shell. Available in Blue, Green, Orange, Red, White and Yellow. MEETS ANSI SPECS

5100R-RATCHET NAPE STRAP

The ratchet nape strap is especially designed to fit the HH caps in order to secure the cap when used in strenuous activity, or when attachments such as welding helmets or faceshields are used. Easy to install, just snap into the side holes provided in the suspension.

BC-BUMP CAP

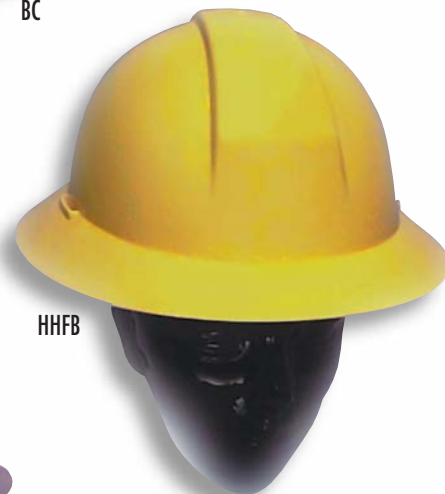

Low Hazard Area BUMP CAP Ideal protection against bumps, scalp lacerations and injuries resulting from contact with low overhead pipes, passageways and other objects. The bump cap is cool and light weight for total wearer comfort. Made out of polyethylene these caps resist cracking and chipping. Bump caps are ideal for: Auto mechanics, Food handling and processing personnel, Meat packing employees, Plumbers, etc... Available in Blue, Green, Orange, Red, White and Yellow.

HHFB-FULL BRIM HARD HAT

P.B.T. (Polybutylene Terephthalate Polyester) outer shell for heat resistance, 4 point web suspension with pinlock adjustment, Full all around brim for extra protection against U.V. rays and rain, Side slots to easily attach or detach accessories, Suspension with 2 adjustment levels for head band on front and rear tab for additional stability and comfort, Sliding mechanism on rear tabs allows self centering of the helmet on the head, Crown pad and sweat band for user comfort, A combination head hugging nape strap and sizing adjustment from 6.5" to 8", Side slots allow the easy attaching or detaching of accessories (This feature is unique to the A-SAFE full brim hard hats). Available in Blue, Green, Orange, Red, White and Yellow

HHFBR

Same as HHFB with 6 point web suspension with ratchet.

CARTRIDGES & FILTERS

Half Face Respirator 770030 Respiratory Safety

Half Mask, Low maintenance dual cartridge elastomeric half mask facepiece (shown with 7580P100 cartridges). Made of extremely soft non-allergenic elastomer. Contoured sealing flange eliminates discomfort caused by pressure points on facial nerves. Low dead air space, limits re-breathing of exhaled air. Direct cartridge to facepiece seal minimizes replacement parts and simplifies maintenance. Cartridges and filters sold separately. Sizes: Small/Medium/Large (ADULT SIZES ONLY)

Full Facepiece Respirator 76008A Respiratory Safety

Dual Cartridge Silicone Full Facepiece respirator. (Shown with 7584P100 cartridges) Silicone facepiece material conforms to facial features and doesn't harden with age. Silicone is easy to clean, extremely durable resists distortion. Oral nasal cup reduces fogging and lessens dead air space, limiting rebreathing of exhaled air. Speaking diaphragm makes communication easy. 5-strap harness provides effective and comfortable facepiece-to-face seal. Chin cup helps to position facepiece properly. Neck strap allows wearer to park respirator when not in use. Hard coated polycarbonate lens provides an over 200° field of vision, protects the wearer's eyes and face against irritants, and has excellent optics. Meets ANSI standards for impact and penetration resistance. Sizes: Small/Medium/Large (ADULT SIZES ONLY)

7583P100

DUST MASKS

DM-1810

DM-100

DM-100 DUST MASK

Lightweight, disposable dust mask provides a convenient, inexpensive way to protect workers from nuisance and non-toxic dusts, powders, pollens and other common airborne irritants in the workshop, home, factory, farm and garden. 50 per box 12 boxes per case.

DM-1810 DUST & MIST APPROVED RESP.

Single-use dust and mist respirator engineered for added comfort. Strengthened outer shell, prestretched, heavy-duty head straps, soft inner face piece, large filter area, adjustable nosepiece and foam inner seal, lightweight, compact design. 20 masks per box, 12 boxes per case.

2200 RESPIRATORS WITH DURA-MESH™ SHELL

Collapse-resistant Dura-Mesh™ shell lasts longer so workers use fewer masks. Shaped for comfort with contour molded nose-bridge. Seals easily and comfortably without metal noseband. Certified under NIOSH 42CFR84 to have filter efficiency level of 95% or greater against particulate aerosols free of oil. Flame-retardants added to help decrease flammability of shell. Available in three sizes: Medium/Large; Small; Alternate Shape

2300 RESPIRATORS WITH EXHALATION VALVE

Can be used for most welding fumes. Exhalation valve reduces hot-air build up. Keeps workers cooler and more comfortable. Collapse-resistant Dura-Mesh™ shell lasts longer so workers use fewer masks. Flame-retardants added to help decrease flammability of shell. Shaped for comfort with contour molded nose-bridge. Seals easily and comfortably without a metal noseband. Certified under NIOSH 42CFR84 to have efficiency level of 95% or greater against particulate aerosols free of oil. Available in three sizes: Medium/Large; Small; Alternate Shape.

2400 RESPIRATOR WITH ORGANIC NUISANCE RESPIRATOR

Same as 2200 with nuisance levels of ozone and organic vapors.

BODY SUPPORT

BS-100

932

932

Lightweight, sub-pelvic full-body harnesses made of 1 3/4" wide resin-treated polyester webbing. The two-color design makes the harnesses easy to put on. Sliding back D-ring, parachute buckles on leg straps, universal sizing.

VF500 ROPE GRAB

Small, lightweight rope-grabbing devices ride a vertical lifeline and automatically lock in place if a fall occurs. The Automatic rope grab follows a worker up and down a 3/8" diameter vertical synthetic rope lifeline. The unit's controlled, shock-absorbing action eliminates the need for an energy absorber lanyard. The patented design allows the rope grab to be attached, detached, and positioned at any point on the vertical lifeline. Weighs 1 1/2 lbs. and is made of stainless steel. New York approval #9502.

9450

VF500

BS-100 ECONOMY INDUSTRIAL BACK SUPPORT

The economy industrial back support has a duo tension system for maximum abdominal support and four flexible stays for greater stabilization. It also features a back panel constructed of breathable spandex material and four rubber-stitched gripper strips to keep support from riding up and rolling. It has an 8" high back tapered in front to 4" and adjustable 1 1/4" elastic suspenders. Company logo silkscreened on belt and custom sizing are both available upon request.

POLY SHEETING

Poly Sheeting is widely used in construction and agriculture as a dust barrier in demolition, cover freshly painted concrete, and to prevent soil erosion and protection of equipment in agriculture. It is also used for asbestos abatement to enclose and seal areas when removing asbestos. It is available in thicknesses from 1 mil to 10 mil, in sizes from 4' x 100' to 40' x 100' rolls. It is translucent and folded conveniently for handling and storage.

TS-10 Tarp Straps

Molded rubber tie downs with quick grip hooks. The economical alternative to polyurethane tie downs and tarp straps. Made of the highest grade weather-resistant black EPDM and are molded and extruded using only virgin material that will out perform similar products. Straps stretch one and one-half times their original length and are imprinted with safety instructions. They are ideal for the light to medium duty use.
TS-10 10", TS-15 15", TS-21 21",
TS-31 31", TS-41 41"

Our unique formulation resists:

- Cracks and abrasions
- Steam
- U.V. Degradation
- Oxidation
- Extremes of heat and cold
